Policy Statement

Imperial Medical Solutions FZE, part of the Imres Group and hereafter named Imres, attaches the greatest importance to reducing its impact on the environment while providing essential medicines and medical supplies to our customers across the globe.

In our commitment to sustainable and responsible business practices, our Environmental Policy stands as the cornerstone and overarching framework for our Environmental Management System (EMS).

The scope of our EMS encompasses the procurement, storage, and sales of pharmaceuticals, medical products and value added services from our operations in Lelystad. This policy articulates our dedication to minimizing our environmental impact within these critical facets of our business, continually improving our environmental performance.

We are a signatory to the United Nations Global Compact and use the Sustainable Development Goals as framework in reducing our environmental impact, with the emphasis on SDG's 6 clean water and sanitation, 13 climate action, 14 life below water, 15 life on land and 17, partnerships for the goal.

This policy is yearly reviewed and updated to ensure that, together with our stakeholders, we will maximize the results of our efforts.

Dubai, December 2024

Matthew O'Neill

COO

Sherin Thomas

Facility and HSE Manager

**SUSTAINABLE
DEVELOPMENT GOALS**

General Principles

Imres will conduct its operations with consideration for its employees, community, infrastructure and the environment.

Imres guidelines for environmental protection are aligned with DP World's policies and standards and are at least as stringent as applicable legislation and reporting requirements.

Imres recognizes the important role of its employees in its environmental program and will continue to develop their understanding and participation in implementing the Group's policy.

Promote the open exchange of environmental information with customers and suppliers, as well as within Imres and the communities where Imres operates.

Adopt the principle of Integrated Environmental Management to ensure the optimum balance between our operation and environmental protection.

Imres requires its suppliers and service providers to adhere to our environmental standards and reserves the right to terminate contracts if they are found to be in breach of any clauses.

Imres is committed to achieving net zero emissions in 2050, in line with DP World's commitment to achieving net zero emissions by 2050.

Follow the principle of continuous improvement in environmental performance.

Environmental Objectives

Compliance with Environmental Regulations:

1. Comply with all environmental regulations and strive to exceed the minimum requirements set by Trakhees-PCFC /UAE Laws.

Waste Management:

2. Set a baseline for the warehouse waste (OCC + Plastic) recycling.
3. Set a baseline for the office and warehouse skips.

Energy Conservation:

4. Set a baseline for Electricity and Water consumption.

Sustainable Procurement:

5. Expand the product portfolio with 25 greener choice products by the end of 2025.

Emissions Reduction:

6. Introduce a more sustainable printing paper and replace all the printing paper with the more sustainable option by the end of 2025.
7. Monitor paper consumption for the year 2025 and set a baseline.

Environmental Awareness:

8. Train all Imres staff on the relevant aspects of the Environmental Management System.
9. Engage with and measure how our suppliers adopt sustainable practices, including scope 3 emissions, in the supply chain.

This policy is available on the Imres website and in our internal Quality Management Information System
